## ➤ **AKG of America**

As a leading supplier of customer-oriented solutions, AKG has acquired an internationally acclaimed reputation for producing reliable, high-quality heat exchangers specializing in brazed aluminum bar-plate construction as well as traditional copper/brass tube & fin designs. AKG products can be found in the construction, forestry, agriculture, on-highway, compressor, material handling, industrial, off-highway, power generation and mining markets. AKG's in-depth knowledge of heat transfer, continuous research and development, and refined production processes provide our customers with complete confidence that AKG is a one stop source for all their cooling needs.

## ➤ **CCC - Catalytic Combustion Corporation**

Manufacturers of catalyst and replacement catalyst elements for all manufactures systems. Diesel oxidation catalyst, diesel particulate catalyst, SCR systems, diesel particulate systems, oxidation systems and catalysts systems for diesel and gas engine emission reductions. Catalyst cleaning and testing for all manufacturer's catalyst.

## ➤ **Clorius Controls**

Manufacturer of two and three way electrically actuated thermostatic control valves, actuators, and comprehensive control solutions supporting various marine and industrial applications. Electric, pneumatic, self-acting and internally sensed control systems to meet specific requirements.

## ➤ **FPE - Fluid Power Energy**

Two & three-way thermostatic control valves electrically actuated 3-way temperature control valve systems. oil cleaning centrifuges for engine and compressor applications.

## ➤ **inExhaust (Innovative Exhaust Solutions, Inc.)**

Engine exhaust silencers- cylindrical, disk and low profile for noise reduction, spark arrestors, exhaust accessories, catalyst emissions reduction systems for diesel and gas engines, OEM exhaust flex connectors and tubing systems.

## ➤ **Load Banks Direct (LBD)**

Load Banks Direct (LBD) is a leading manufacturer of high-capacity Load Banks used in the testing and commissioning of standby emergency power systems including generators, uninterruptible power supplies, turbines, battery systems and regenerative power absorption of large motors, and other load applications. Products include stationary (outdoor rated), radiator duct mounted, portable and trailer mounted.

## ➤ **Maxim Exhaust Gas Heat Exchangers**

Vertical and horizontal exhaust gas heat exchangers for exhaust heat recovery, combined heat and power (CHP) and cogeneration systems.

## ➤ **Parsons Electric**

Industrial control panels, electrical control panels, temperature control panels for VFD and staging single & multi-fan radiators and pumps, pump staging panels for lead lag pump systems, motor starter/ disconnect panels, safety disconnect switches and NESHAP temperature and pressure drop monitoring panels.

## ➤ **Rocore**

Oval & round tube single and multi-fan low noise remote radiators, air to air charge air cooler, remote mounted and engine mounted, with mounting stands and piping kits, shell & tube heat exchangers, unit mounted fan on engine and engine driven radiators.

## ➤ **SENS - Stored Energy Systems**

Battery chargers, best battery selectors, and uninterruptible power supply (UPS) systems, NiCad batteries

## ➤ **Southern Heat Exchangers (SHECO)**

Designs and manufactures custom, high-pressure shell & tube heat exchangers. SHECO is ready to meet the growing service and repair needs of the heat exchanger industry.

## ➤ **Sondex**

Single and double wall, plate & frame heat exchangers

## ➤ **Temptec**

Thermal insulation blankets for engine silencers, manifolds, and exhaust accessory components

## ➤ **Thermal Transfer Products**

Oil coolers, shell & tube heat exchangers, fuel coolers (remote and unit mounted)

## ➤ **Victory Energy Operations**

One-piece free-standing exhaust stacks and breeching for engine exhaust systems, steam and hot water heat recovery systems for engine exhaust and jacket water.

## ➤ **Worldwide Air Coolers**

Worldwide Air Coolers designs and manufactures large round tube, low noise remote radiators, and shell & tube heat exchangers for gas coolers for diesel and gas engine applications.

**Version: March 2021**
