

LT Series Trailer Mounted Load Banks

LBD's LT Series Trailer Mounted Load Banks are supplied as a complete "Trailer-Ready" assembly suitable for mounting to a 7,000 or 10,000 pound GVW Highway rated trailer. Don't want to purchase the trailer separately? No problem, LBD can supply the LT Series Load Bank already mounted to a DOT and ICC road legal trailer. Our trailers feature heavy-duty welded steel construction with a steel deck, dual axles, radial tires, electric brakes and lights, adjustable lunette eye and front/rear stabilizer jacks.

LT500

500 kW

Compact and Lightweight design that is ideal for small trailers.

Capacity:	500kW
Voltages:	240/480, 480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	5 kW
Connectors:	Cam-Lok

LT750

750 kW

Rugged galvanized steel construction with powder coat paint.

Capacity:	750kW
Voltages:	240/480, 480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	5 kW
Connectors:	Cam-Lok

LT1000

1000 kW

Larger capacity Load Bank specifically designed for direct mounting to DOT over the road trailer.

Capacity:	1000kW
Voltages:	240/480, 480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	5 kW
Connectors:	Cam-Lok

LT1250

1250 kW

Larger capacity Load Bank specifically designed for direct mounting to DOT over the road trailer. Optional trailer shown here.

Capacity:	1250kW
Voltages:	240/480, 480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	5 kW
Connectors:	Cam-Lok
Options:	Motorized cable reels

LT1500

1500 kW

High capacity - large enough to meet the most demanding testing requirements.

Capacity:	1500kW
Voltages:	480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	10 kW
Connectors:	Cam-Lok
Options:	Motorized cable reels

LT2000

2000 kW

High capacity - large enough to meet the most demanding testing requirements.

Capacity:	2000kW
Voltages:	480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	10 kW
Connectors:	Cam-Lok
Options:	Motorized cable reels

LT2400

2400 kW

High capacity - large enough to meet the most demanding testing requirements.

Capacity:	2400kW
Voltages:	480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	25 kW
Connectors:	Cam-Lok
Options:	Motorized cable reels

LT2500

2500 kW

High capacity - large enough to meet the most demanding testing requirements.

Capacity:	2500kW
Voltages:	480 or 600 VAC, 3-Phase
Type:	Resistive, 1.0 pf
Frequencies:	60Hz
Load Resolution:	25 kW
Connectors:	Cam-Lok
Options:	Motorized cable reels
